

HEAT AND DRY

# HORIZONTAL LADLE PREHEATER

HORIZONTAL LADLE PREHEATERS ARE USED FOR HEATING PURPOSES, AS WELL AS KEEPING VARIOUS TYPES OF LADLES WARM. ALL MAPEKO LADLE HEATERS ARE INDIVIDUALLY DESIGNED AND MANUFACTURED.

Horizontal ladle preheaters can be designed in various versions:

- Heaters for one or more heating positions
- Additional maintenance door in the ladle cover
- Rail-guided heaters
- MAPEKO swinging heater
