

COMPANY

## The Company

### MAPEKO Economical Preheating

Since the company's establishment in 1973, MAPEKO has developed into a leading manufacturer of industrial heaters and offers pioneering solutions to steel plants and foundries. To date, more than 1500 MAPEKO-systems with different tasks and designs are in operation worldwide.

The company's corporate philosophy is based on respect for cooperation, trust and communication, which makes it possible to develop and produce customized solutions from a single source.

Exceptional quality, revolutionized fuel efficiency, less emissions, maximum availability, easy operation, advanced technology and a profound understanding of problems that might occur during drying and preheating processes, are the hallmarks of our heaters.

#### MAPEKO ESP (ENERGY SAVING PROGRAM) & MAPEKO MGP (MAPEKO GREEN PROGRAM)

Environmental protection and energy efficiency are the foundations of our philosophy, and we accomplish this in the design of our systems. We feel that we have the responsibility to protect and conserve our environment and its resources.

The development of an energy saving program (ESP - ENERGY SAVING PROGRAM) like the environmental protection program (MGP - MAPEKO GREEN PROGRAM) is just some of the ways the company plays its part in conserving the environment and its resources.

MAPEKO systems are designed so that they produce as little pollutants as possible, incorporated with exceptional energy efficiency.

#### Certified quality according to DIN EN 9001:

Quality is an important aspect for us and our customers. With certification according to DIN EN 9001:2008, we acknowledge that we are constantly working on improving the quality of our products so that they meet the highest quality standards.

MAPEKO is a member of the [INTOCAST Group](#).
